

Single dimmer

Single dimmer is a dimmer allows stepless controller. Use knob control, the user can according to actual needs, will be transferred to the appropriate light intensity.

I. Technical parameters

- Operating temperature: -20-60 °C
- Supply voltage: DC12V
- Output: 1 channel
- Overall dimensions: 70*34*34 mm
- Package Size: 88*65*40 mm
- Net weight: 40g
- Gross Weight: 50g
- Static power consumption: <1W
- Output current: <6A
- Output Power: 72W

II. Instructions for use

1. To connect the load line, connect the power cord; power cable between the front to ensure no short circuit;
2. Use rotary control, the following functions:
Rotate the knob to the right, the brightness gradually brighten, spin to the right, the brightness maximum.
